9-9-9-9 Lottery's latest daily number combo to sell out

Joins 9-9-0-9 in reaching \$3 million liability limit

(Madison)— The 9-9-9-9 number combination in the Wisconsin Lottery's Daily Pick 4 game is the latest daily lotto combination to reach its \$3 million liability limit today. Players can no longer purchase Pick 4 tickets with the 9-9-9-9 combination for tonight's drawing.

9-9-9-9 joins 9-9-0-9, which hit its wager limit earlier this afternoon.

Whenever the wagers for a specific set of numbers in the Pick 3 or Pick 4 daily lotto games reach \$3 million in potential prize payout, sales of that number set are suspended. The games themselves continue; they are not shut down and sales of all other number combinations are not affected. Only those specific number combinations that reach \$3 million in possible prize payout due to heavy wagering are made unavailable.

The Lottery expected there could be enough interest in today's date among its daily lotto game players that it was likely that some combination of 9s would reach the \$3 million liability cap in the Pick 4 and Pick 3 daily lotto games.

The 9-9-9 combination in Daily Pick 3 has reached \$2.4 million in liability for tonight's drawing and could sell out before ticket sales end just after 6 p.m.
